DETAILED ACTION

1. The text of those sections of Title 35 U.S.C. Code not included in this section can be found in the prior office action.
2. The prior office actions are incorporated herein by reference. In particular, the observations with respect to claim language, and response to previously presented arguments.
3. Claims 1 – 4, 6 – 11, 13 – 18, 20 – 23, 26 – 29 and 31 - 37 are pending.

Response to Arguments

4. Applicant's arguments filed on September 19, 2005 have been fully considered and they are persuasive in view of a telephone interview with Lee P. Noehring, David Casseti and Paul D. Amrozowicz.

Allowable Subject Matter

5. Claims 1 – 4, 6 – 11, 13 – 18, 20 – 23, 26 – 29 and 31 - 37 are allowed. Allowed claims are renumbered as 1 – 32.

6. Baker (US Patent Number: 5,948,080) and Krishna et al. (US Patent Number: 6,477,646) disclose a method and system for assigning a data packet to a data communication channel or DMA channel that includes the step of receiving at least a portion of a data packet in a data packet comparison circuit by comparing at least the portion of the data packet to a predetermined data set. Baker further discloses that the invention provides a programmable, flexible and adaptable way to determining that a particular data packet should go to a particular DMA communications channel. Krishna et al. discloses a method for a cell-based packet processing architecture allowing the implementation of a processing pipeline that has known processing throughput and timing characteristics, making it possible to fetch and process the cells in a predictable time frame. Krishna further discloses an IPSec processing chip implemented by having 3DES-CBC and MD5/SHA1 processing blocks and Diffie-Hellman or RSA and DSA public key processing.

7. The following is an examiner's statement of reasons for allowance: The Admitted prior art does not disclose, teach or suggest "a transmitting (Tx) direct memory access (DMA) interface receiving a streamed security data packet, selecting a least busy channel for processing the streamed security data packet, based on an amount of buffer space available for a channel in an external memory, and transferring the streamed security data packet to the external memory;"

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Pramila Parthasarathy whose telephone number is 571-272-3866. The examiner can normally be reached on Tuesday – Thursday 8:00a.m. To 3:00p.m..
